

# OUR BACKGROUND

- ▣ TE3MI Support Services, LLC is a small business enterprise, specializing in designing , prototyping, developing and producing a full line of highly portable Radio Frequency (RF) shielded products. These products provide a high level of RF signal security, control and concealment by attenuating the strength of signals emanating from computer and communications gear deployed by elements of the US Government and Military. TE3MI's management and staff have been serving clients within the intelligence, diplomatic and Military communities for over 18 years. Prior Military and Government service backgrounds add to the value and effectiveness of each product and service.
